

Amendments to the Claims

Please cancel Claims 1-7 without prejudice or disclaimer.

Please add Claims 8-11 as follows.

1.-7. (Canceled)

8. (New) An image pickup apparatus comprising:

an image pickup device for converting an object image into an electrical signal;

a chassis; and

an exterior member,

wherein said chassis comprises first bent portions positioned at opposing ends of said chassis, a plurality of fixing members formed on the first bent portions in order to fix said chassis to said exterior member, and a second bent portion formed between the first bent portions.

9. (New) An image pickup apparatus according to Claim 8, further comprising a recording-medium accommodating unit, wherein said recording-medium accommodating unit is located in a space formed between one of the first bent portions and the second bent portion.

10. (New) An image pickup apparatus according to Claim 9, wherein said recording-medium accommodating unit is covered by a covered portion which is located between one of the first bent portions and the second bent portion of said chassis and is facing said exterior member.

11. (New) An image pickup apparatus according to Claim 9, further comprising a battery accommodating unit, wherein said recording-medium accommodating unit is fixed to said battery accommodating unit.
